DETAILED ACTION

1. Claims 1-59 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-29, are drawn to secure access to medical records, classified in class 713, subclass 193.

- II. Claims 30-59, are drawn to a medical records database, classified in class 707, subclass 9.

The inventions are distinct, each from the other because of the following reasons:

1. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility because it can be used for the access of documents from any remote computer, not necessarily the database of invention II. See MPEP § 806.05(d).
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
